2024 IEEE International Multi-Conference on Engineering, Computer and Information Sciences (SIBIRCON)

Symposium on Control Software: Models, Methods, and Languages

30 Sep - 2 Oct, 2024

1 Oct		
10:30	Artyom Ishchenko, Igor Anureev	Requirement Patterns in Isabelle/HOL for Deductive Verification of Process-Oriented Programs
10:50	Ivan Chernenko, Igor Anureev	Temporal Requirement Patterns in Deductive Verification of Process-Oriented Programs
11:10	Konstantin Kramarenko, Artem Polyakov, Aleksandr Efimov	Shared Memory Access Optimization Analysis System for PMIx Standard Implementation
11:30-12:00	**Coffee break**	
12:20	Vladimir Zyubin	popCAN: CAN-bus Application Level Protocol for Implementing Inter-Process Communication in Distributed Microcontroller Systems
12:40	Konstantin Lee, Anton Maseevsky, Vladimir Zyubin	Visualization of Plant Simulators in Virtual Training Kit for poST language
14:00-15:00	**Lunch**
